How does Finance Weekend Immersion Program™ help you?

The program is structured to blend theory with practical application, ensuring participants gain comprehensive insights, tasters and hands-on experience in their chosen field. Engaging workshops, expert panels, and interactive sessions provide a unique learning environment, fostering networking, personal growth and career clarity.

Through this weekend immersion program™, you will receive:

Real World Experience

Engage in simulations and case studies that mirror real financial decision-making, providing a robust understanding of the financial sector's dynamics.

Comprehensive Career Insight

From investment strategies to financial planning, receive a comprehensive view into the breadth of finance, covering essential theories and practices.

Guided Career Clarity

Experiment with various facets of finance in a supportive environment, aiding in discovering your true financial career calling.

Tangible Portfolio Additions

Develop and execute a project that demonstrates your financial acumen, serving as a powerful addition to your professional or academic portfolio.

Who is Finance Weekend Immersion Program™ for?

Students and young professionals interested in gaining a comprehensive understanding of finance, from investment banking to fintech.

Teenagers

Ambitious 15-19 year old's fascinated by the world of finance and eager to learn about investment, banking, stock market and financial planning.

School Students

Students in 8th-10th grade curious about finance as a career path and looking to get an early start on understanding financial concepts and markets.

High School Students

11th and 12th graders contemplating finance or related degrees, interested in gaining a foundational understanding and experience of different domains of finance and their operations.

Undergraduates

First or second-year college students from any field looking to broaden their financial knowledge, explore investment banking or personal finance, or have aspirations in finance.

SCHEDULE FOR DAY 1

Day 1 introduces the fundamentals of finance, accounting, and financial statements, followed by simulated finance experiences. Participants analyze real financial statements and develop financial tasks in groups, with guidance from industry professionals.
